

Friday February 24th 2006

Immediately after we have finished the stove and ceremony at Chaludewa Primary School we go to the sister school of Chaludewa, Seluka Primary School. This school is headed by the same Head Master as in Chaludewa.

Seluka Primary School

Seluka Primary School	Pre-primary	Primary	Cobet	Total
Boys	30	181		121
Girls	25	198		223
Number of teachers				
Total	55	379		354 (teachers excl.)

The school is located just some kilometres away and is half the size only of Chaludewa.

The stove construction

The construction starts immediately and also here are many people who wants to help so we do not need to do anything when it relates to the construction, we are free to talk to teachers and children. When the stove is ready we are signing the stove by writing our names plus TNT-Sweden on the top layer.

Playing

The orchestra starts to play and the march can begin, we walk around a big field and when coming back to the school everybody lines up and we are having a great time. We are bringing a skipping rope and the children wants to skip immediately, many of them are trying to skip and some of them are really good. Some skips in pair and turn around each other while skipping. In the long run it is quite tiring to stand there with the skipping rope so we hand over the rope to some of the students so they can continue themselves.

The orchestra and the march

Some of the students are sitting down and playing the drums, one of the drums is not being used and I join them. After some minutes I find the beat and we have a long drumming session while waiting for the lunch to be ready. This was really fun.

Lunch

The lunch is ready and all students' lines up for hand washing, a routine well implemented as everybody knows what to do before serving the meals. After a short while we are ready to leave.

At last

Do not forget this important event; the walk this year is taking place in May 21st in your city or a city nearby. You can register your attendance by visiting <http://www.fighthunger.org/signup06>.
